

## **SAFETY DATA SHEET**

# SAFETY DATA SHEET CITRIC ACID 50% SOLUTION

# **Citric Acid 50% Solution** Distributed by Alliance Chemical

# **SECTION 1: IDENTIFICATION**

Product Trade Name: Citric Acid 50% Solution

Chemical Family: Acids

# **Distributed By**

Alliance Chemical 204 South Edmond St Taylor Texas 76574 CHEMTEL (800) 255-3924 (24 Hours/Day, 7 Days/ Week)

# **SECTION 2: HAZARD IDENTIFICATION**

# **Emergency Overview**

Warning: Irritating to eyes. Corrosive to metals. May cause irritation of respiratory tract.

AppearancePhysicalState OdorClear Light yellow to BrownLiquidOdorless

Serious Eye Damage / Eye Irritation	Category 2
Corrosive to Metals	Category 1
GHS Label Elements	
Signal Word	WARNING!
GHS Hazard Pictogram(s):	
Hazard Statement(s):	H319 Causes serious eye irritation
	H290 May be corrosive to metals
Precautionary Statement(s):	Prevention Precautionary Statement(s):
	Wash hands and exposed skin thoroughly after handling.
	Wear eye protection.
	Keep only in original container.
	Response Precautionary Statement(s):
	If in eyes: Rinse cautiously with water for several minutes. Remove
	contact lenses, if present and easy to do. Continue rinsing. If eye
	irritation persists: Get medical advice.
	Absorb spillage to prevent material damage.
	Storage Precautionary Statement(s):
	Store in corrosive resistant container with a resistant inner liner.

#### SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Component Name	CAS#	OSHA Hazardous	% OPTIONAL
Citric Acid	64-17-5	Yes	~ 50%
Water	7732-18-5		~ 50%

### **SECTION 4: FIRST AID MEASURES**

#### Eye

Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. If symptoms persist, call a physician.

### Skin

Immediately flush affected area with plenty of water while removing contaminated clothing. Wash contaminated clothing before reuse. If irritation persists, get medical attention.

#### Inhalation

If symptoms are experienced, move victim to fresh air. Obtain medical attention if breathing difficulty persists.

#### Ingestion

If swallowed, give plenty of water Obtain emergency room treatment immediately.

#### Main Symptoms

Itching, Redness, Burning sensation.

### Note to Physician

Treat symptomatically

## **Protection of First-aiders**

Use personal protective equipment.

### **SECTION 5: FIRE FIGHTING MEASURES**

#### Flammable Properties

Will burn if dried and heated with a flame.

### **Extinguishing Media**

Suitable: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

## **Hazardous Combustion Products**

Carbon monoxide (CO), Carbon dioxide (CO2)

# **Explosion Data**

Sensitivity to mechanical impact No Sensitivity to static discharge No

# **Specific Hazards Arising from the Chemical**

Thermal decomposition can lead to release of irritating gases and vapors.

# **Protective Equipment and Precautions for Firefighters**

#### SAFETY DATA SHEET CITRIC ACID 50% SOLUTION

As in any fire, wear self-contained breathing apparatus pressure-demand, NIOSH (approved or equivalent) and full protective gear.

#### **NFPA**

Health = 2, Flammability = 1, Reactivity = 0

# **SECTION 6: ACCIDENTAL RELEASE MEASURES**

#### **Personal Precautions**

Avoid contact with the skin and the eyes. Ensure adequate ventilation

#### **Environmental Precautions:**

Prevent further leakage or spillage if safe to do so. Do not flush into surface water or sanitary sewer system. Prevent product from entering drains.

#### Methods of Clean-up

Dam up. Neutralize. If liquid has been spilt in large quantities clean up promptly by scoop or vacuum. After cleaning, flush away traces with water.

### **SECTION 7: HANDLING AND STORAGE**

# Handling

Avoid contact with skin, eyes and clothing. Wear personal protective equipment. Remove and wash contaminated clothing before re-use.

#### Storage

Keep in properly labeled containers. Keep container tightly closed in a dry and well-ventilated place.

# SECTION 8: EXPOSURE CONTROLS AND PERSONAL PROTECTION

#### **Engineering Controls**

Ensure adequate ventilation, especially in confined areas. Ensure that eye wash stations and safety showers are close to the work station location.

# **Personal Protection**

**Inhalation:** A respiratory protection program that meets OSHA's 29 CFR 1910.134 or ANSI Z88.2 requirements must be followed whenever workplace conditions warrant respirator use.

**Skin:** Wear chemical resistant gloves such as rubber, neoprene or vinyl. When skin contact is possible, protective clothing including gloves, apron, sleeves, boots, head and face protection should be worn.

Eye: Use splash goggles when eye contact due to splashing or spraying liquid is possible.

#### Additional Remarks

Selection of appropriate personal protective equipment should be based on an evaluation of the performance characteristics of the protective equipment relative to the task(s) to be performed, conditions present, duration of

# SAFETY DATA SHEET CITRIC ACID 50% SOLUTION

use, and the hazards and/or potential hazards that may be encountered during use. Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Use good personal hygiene practices. Wash hands before eating, drinking, smoking, or using toilet facilities. Promptly remove soiled clothing/wash thoroughly before reuse.

## **Occupational Exposure Limits**

This product is not known to contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies.

### **SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES**

**Appearance:** Liquid. White/pale yellow

Odor: None pH: 0.5

Boiling Point/Boiling Range: 105 °C (221 °F)
Flammability: No flammable limits
Vapor Pressure: No information available
Evaporation Rate: No information available

Specific Gravity: 1.24 – 1.26

Relative Vapor Density: No information available

Viscosity: 10 – 12 cps Solubility (Water): Complete

# **SECTION 10: STABILITY AND REACTIVITY**

### **Chemical Stability**

The product is stable.

#### **Conditions to Avoid**

Incompatible products

### Incompatible Materials

Strong acids Alkali Strong base Strong oxidizing agents Metal nitrates.

# **Decomposition Products**

Not expected to decompose under normal conditions.

#### **Hazardous Reaction**

Gives off hydrogen by reaction with metals

### Reactions with Air and Water

Does not react with air, water or other common materials

### **SECTION 11: TOXICOLOGICAL INFORMATION**

**Acute Toxicity:** Based on available data, the classification criteria are not met.

Chemical Name	Weight %	LD50 Oral	LD50 Dermal	LC50 Inhalation
Citric Acid	50%	5400 mg/kg Mouse 11700 mg/kg Rat	>2000 mg/kg bw Rat	

01.1					
Skin corrosion/irritation	Based on available data, not, or only slightly irritating.				
Serious eye damage/eye irritation	Irritant causes serious eye irritation.				
Method	OECD Guideline 405 (Acute Eye Irritation / Corrosion)				
Species	Rabbit (New Zealand White)				
Results	Test data is not provided for 50% solution, but results for 30% solution				
	indicate significant irritation score. [Overall irritation score for 30%				
	solution: 16 of max. 110 (mean (of 3 animals)) (Time point: at 1, 24, 48 or				
	72 h) (not fully reversible within: 14 days) (fully reversible in 14-21 days)				
	(expert opinion) (score achieved at 1 h)]				
Respiratory or skin sensitization	Based on available data, not expected to be a skin or respiratory				
	sensitiser.				
Germ cell mutagenicity	Based on available data, negative to test/non-mutagenic.				
Carcinogenicity	Based on available data, no evidence of carcinogenicity. There are no				
	known carcinogenic chemicals in this product				
Reproductive toxicity	Based on available data, no evidence of reproductive toxicity.				
STOT - single exposure	Based on available data, no toxicity identified at highest exposure levels.				
STOT - repeated exposure	Based on available data, no toxicity identified at highest exposure levels				
	[NOAEL(rats) 4000mg/kg bw/d].				
Aspiration hazard	Based on available data, no known aspiration hazard.				

### Potential health effects

# Eyes

Avoid contact with eyes. Irritating to eyes.

#### Skin

According to GHS hazard classification criteria, the product is not considered as being a skin irritant. Based on available data, not, or only slightly irritating.

# **SECTION 12: ECOLOGICAL INFORMATION**

### **Ecotoxicity**

Not classified for aquatic toxicity. Contains no substances known to be hazardous to the environment. Contains no substances known to be not degradable in waste water treatment plants.

Chemical	Aqua	Acute Fish	Daphnia	Effects on	Other
Name	Fresh Water Algae	Toxicity	(Water flea)	Micro organisms	
Citric Acid	NOEC(8d): 425mg/l	LC50:440mg/L	EC50: 1535mg/L		
	(nominal)*	(Leuciscus	(Daphnia magna)		
		idus)			

<sup>\*</sup>Determined by extrapolation (testing of intrinsic toxicity to algae impractical due to nutrient complexing behavior of citric acid)

Predicted No Effect Concentrations (PNEC) - Determined by extrapolation

Chemical Name	Aqua (Fresh Water)	Aqua (marine)	Sewage Treatment Plant	Sediment (fresh water)	Sediment (marine)	Soil
Citric Acid	0.44mg/l	0.044mg/l	>1000 mg/l	34.6mg/kg sediment dw	3.46mg/kg sediment dw	33.1mg/kg

**Bioaccumulative Potential** Bioaccumulation is unlikely. [Logkow < 0].

Chemical Name	log Kow	BCF
Citric Acid	-0.2 to -1.8	BCF ~ 3.2 (estimated)

#### SAFETY DATA SHEET CITRIC ACID 50% SOLUTION

Persistence/Degradability: Readily biodegradable. Inherently biodegradable. 97% and 100%

biodegradability in 28d and 19d, respectively (protocols OECD 301E and OECD

301A, respectively).

**Mobility:** Soluble in water.

**PBT and vPvB assessment**The components of this product are not considered to be persistent,

bioaccumulating nor toxic (PBT).

### **SECTION 13: DISPOSAL CONSIDERATIONS**

Hazardous waste Dispose of incompliance with the laws and regulations pertaining to this product in your jurisdiction. Taking into account local regulations the product may be disposed of as waste water after neutralization.

#### **SECTION 14: TRANSPORT INFORMATION**

### Domestic transport regulations (USA)

DOT

**Proper Shipping Name**: Corrosive liquid, n.o.s. (Citric acid)

**DOT Shipping Description** UN1760 Corrosive liquid, n.o.s (Citric acid), 8, PG III

UN-No UN1760 Hazard Class 8 Packing Group III

Special Provisions IB3, T7, TP1, TP28

# Transport Symbol

# **SECTION 15: REGULATORY INFORMATION**

### **Federal Regulations**

SARA 302/304

No chemicals in this material with known CAS numbers are subject to the reporting requirements of CERCLA.

### SARA 311/312

Based upon available information, this material is classified as the following health and/or physical hazards according to Section 311 & 312:

Immediate (Acute) Health Hazard.YesDelayed (Chronic) Health Hazard.NoFire HazardNoSudden Release of PressureNoReactive HazardNo

### **SARA 313**

This material does not contain any chemical components with known CAS numbers that exceed the De Minims reporting levels established by SARA Title III, Section 313 and 40 CFR 372.

### **SECTION 16: OTHER INFORMATION**

# **DISCLAIMER OF RESPONSIBILITY**

The information on this SDS was obtained from sources, which we believe are reliable. However, the information is provided without any warranty, expressed or implied, regarding its correctness. Some information presented and conclusions drawn herein are from sources other than direct test data on the substance itself. The conditions or methods of handling, storage, use and disposal of the product are beyond our control and may be beyond our knowledge. For this and other reasons, we do not assume responsibility and expressly disclaim liability for loss, damage, or expense arising out of or in any way connected with handling, storage, use, or disposal of this product. If the product is used as a component in another product, this SDS information may not be applicable
