

PRODUCT IDENTIFICATION

Product Name: 55 Gallon Open Head Steel Recon Drum, UN Rated, Bolt Ring D Black

Product Code: 70D-N3N-6CH

CAS Number: Not Available

Molecular Formula: Not Available

Molecular Weight: Not Available g/mol

Grade: Not Specified

Purity / Concentration: Not Available

Synonyms: Not Available

PRODUCT OVERVIEW

The 55 Gallon Open Head Steel Recon Drum is a robust, UN-rated containment solution featuring a secure bolt ring closure and a durable black finish. Designed for industrial and laboratory reliability, this drum provides a heavy-duty vessel for the safe transport and storage of various materials.

Grade Significance: As a UN-rated industrial drum, this product meets rigorous international standards for safety and structural integrity, giving users confidence that their materials are securely contained.

CERTIFICATE OF ANALYSIS — TYPICAL VALUES

Certificate of Analysis data not available for this product.

PHYSICAL & CHEMICAL PROPERTIES

Appearance	Open head steel drum with a bolt ring closure, painted black	Form	Solid
Specific Gravity	7.85		

APPLICATIONS

- Chemical Manufacturing** — Utilized for the secure storage and transport of bulk chemical reagents and raw materials within a controlled manufacturing environment.
- Waste Management** — Serves as a reliable container for the collection and temporary storage of industrial waste products prior to disposal or processing.
- Agriculture** — Used for holding bulk quantities of liquid or solid agricultural supplies, ensuring containment compliance during onsite storage.
- Logistics and Shipping** — Provides a standard, UN-rated shipping solution for goods requiring a secure seal to prevent leakage during transit.

STORAGE & HANDLING

Proper storage in a dry, covered area is essential to prevent rust and degradation of the steel structure, which could compromise the integrity of the drum. Maintaining a stable environment ensures the bolt ring closure remains fully functional and preserves the UN-rated safety certification.
